---

## Memorandum

Date: October 28, 2005

From: David Evans deMaria, AAS - 100

To: All Certified Manufacturers Pursuant to AC 150/5345-42D

Subject: Changes to AC 150/5345-42D

---

This is to inform you that the effective date of Advisory Circular (AC) 150/5345-42D is extended 3 months to January 29, 2006. The purpose for this extension is for the evaluation of several editorial changes that are being considered for this document. There will be no major changes to the current version, but some of the editorial changes are being considered to help minimize the impact of tooling changes on manufacturers. This change will also clarify the inclusion of adjustable height extensions in all references to adjustable height devices. The change will be posted as soon as this evaluation is complete.
